Commercial Row, Reno Nevada

Think of living a year or two after one is dead; dead to all practical intents and purposes, dead with the autograph of death inscribed on brow and cheek and lip. Thousands of women live for a year or two after all helplessness and happiness have gone out of their lives. When a woman becomes hopelessly helpless and unhappy she is practically dead. The young woman to whom the future is a dreary waste, the invalid wife who is a helpless, nervous invalid, the mother whose babies are a burden instead of a blessing—all these, unless they take the right measures to recover their health, are better dead than living. In the majority of cases these ghosts of women owe their condition to weakness and disease of the distinctly feminine organism. Frequently they have been deceived by the incorrect diagnosis of some obscure physician and do not understand the true nature of their trouble. It only costs a two-cent postage stamp for a woman to write and describe her condition to Dr. R. V. Pierce, an eminent and skillful specialist, for thirty years chief consulting physician to the Invalids' Hotel and Surgical Institute of Buffalo, N. Y. He will answer letters from all women without charge. He is the discoverer of Dr. Pierce's Favorite Prescription, the greatest of all known medicines for women. It acts directly on the delicate organs concerned in maturity and makes them strong, healthy and vigorous. It banishes the dispositions of the anxious period and makes baby's coming easy and almost painless. It cures all disorders and displacements and checks exhausting drains. Previous to motherhood my wife was very sick," writes Dennis H. Connelly, Esq. of Clear Water, Wright Co., Minn. "Two bottles of Dr. Pierce's Favorite Prescription made her well and strong."

Dr. Pierce's Pleasant Pellets cure biliousness and constipation. One a dose. They never gripe.

WHAT DOES HE MEAN.

In his telegram to Secretary Alger General Otis uses these words: "Troops are now recovering from demoralization caused largely by state action." So far as this refers to Colorado and it may refer entirely to Colorado, the News can characterize the language as extreme. An enlisted man, in the eyes of most regular officers, is merely a machine, who is to do as he is ordered, whether it be to fight or to live on rotten pork. If he cannot live on rotten meat and hardback, while the officer dines at the club, he ought not to have enlisted.

The Colorado regiment, as did the regiments of other States, enlisted to fight, and expected to endure the ordinary hardships of a soldier's life. They did not enlist to be starved or to be left without attention if sick, or to be otherwise mistreated. In that regiment are men of education and intelligence, who know their rights and their duties, and that a government with plenty of cash, plenty of commissary stores and plenty of credit, is able to supply its soldiers with enough to eat. If because Colorado or any other State has taken steps that its volunteers lack neither food, medicine nor attendance "demoralization" has been caused, then let General Otis see to it that no State aid is necessary and there will be none proffered. Whatever the States have done has been rendered necessary by what the national government or its officers have not done. To starve men who are brave and willing to fight and to perform soldierly duty is an outrage, and a general in command should be the last man to even indirectly condone such abuse of citizen soldiers.—Rocky Mountain News.

NATIONAL PRIDE NOT SKIN DEEP

Even in the capital, with all its activities, there is little, if any, real interest in the peace negotiations which drag their slow length along in Paris. On the very day that held the fate of Spain, and the decisive news from Cuba was expected, the bull ring, the Grand casino, and all the theaters were thronged by light-hearted and pleasure-loving crowds, nobles and peasants alike callous to defeat or victory. When the fatal intelligence came one who was on the spot tells me there was little, if any, emotion, and the wild festivities went on without interruption, the bull ring having a transfixed audience of over 14,000; history repeating itself; fiddling and the country in flames.—Madrid Correspondent in London Echo.

The sooner the American Commissioners at Paris insist on the surrender of the Philippines and Cuba, so much the quicker will the United States have possession of that territory, and the expense entailing on the present "negotiations" will be ended. A people so regardless of momentous questions as the Spanish will not regret nor will they fight against the demands of the greater nations. It is only a handful of diplomatic rogues, together with the members of the reigning family, that resist the actions of this country. The Spaniard gets his ration of garlic, olive oil, and his cigarette and his bull fight, and he is content. National pride is not even skin deep.—Denver Stockman.

CUBAN RAILROADS.

There will soon be work in Cuba for American mechanics. The railroads in that island are in need of reconstruction. This is shown by the condition of one of the roads which is 123 miles long. Its passenger equipment consists of three first-class, five second-class and eight third-class coaches. Their condition is said to be so bad that in the United States an immigrant would refuse to ride in them. The freight equipment consists of eighty-five box, flat and coal cars. The fare on this road is \$7.40 in gold, to which is added a government tax of 10 per cent, as well as a small fixed tax which the railroad company collects for the government and makes the total fare nearly \$9. The tariff on a ton of first-class freight for the full length of the road is \$22. The shipper is also required to pay a government tax. Although all the roads are private corporations, the government has exercised considerable control over them.

The Austin Reville says: Our weather prophet says that the present winter is going to be a severe one, and that the snow will commence to fall about the 15th of December and continue with great regularity until February, and that the snow will be piled up to a good depth, and that the loss of cattle and sheep on the range will reach a high percentage. Out this out, paste it up, and see how near the prediction comes to being verified.

The so-called Republican landslide in Nevada didn't amount to much after all. Every man on the Silver party ticket except one, was elected and as far as the Legislative and county officers are concerned they are nearly all silver. There was a big hurrah, but not many results as far as the Republicans were concerned.

Alfred Dreyfus, the former French officer undergoing imprisonment for life on Devil's Island has been informed of the revision proceedings in his case.

TELEGRAPHIC NOTES.

Officers and men of the Multnomah, Ohio, are searching for the negro, who on Thursday night outraged Susan Williams, a white girl. If caught the fiend will be lynched.

Fourteen well known Texans under the leadership of Lieutenant Gates of Dallas county, Texas, and recently members of the First Texas Volunteers have been detailed for special police service in Cuba. There will be twenty-two mounted and picked men stationed between Mantanzas and Havana.

Lieutenant Colonel McCleskey, commanding the Twentieth Regular Infantry at Fort Leavenworth, issued orders yesterday to the Quartermasters to provide rations for the regiment suitable for a tropical climate. It is believed they will be ordered to the Philippines.

Two freight trains on the Chicago, Rock Island and Pacific collided at Moscow, Iowa, yesterday. Shortly after a mail train ran into the wreck of the first trains. One man was killed and seventeen other persons more or less seriously injured.

The dead body of J. B. Groninger, a wealthy rancher, was found on the Big Four tracks at Delaware. The remains were mutilated and it is believed he was murdered and robbed. The finding of his pocket book with letters in it, some two miles from the spot where the body was found bears out the suspicion.

The sailing vessel Atlantic went ashore 16 miles south of Alsea Bay on the Oregon coast. She was bound from Tacoma to an African port with a cargo of grain. Only two men out of the thirty comprising her crew reached shore at latest report.

A gang of twenty track hands at work on the Pennsylvania railroad near Jersey City were run down by a local passenger. Eleven of the workmen were killed outright and six seriously injured.

The negro miners at Pana, Ill., are terrorizing the whites of the place. Families are compelled to gather together and the male members join in the defense against the black scoundrels. Troops have been called out to stop the trouble.

Two convicts of the Columbus, Ohio, penitentiary attempted to escape yesterday morning. A desperate fight occurred, in which Chas. T. Laughlin, back, a guard, was killed and convicts O'Neil and Atkinson were seriously and perhaps fatally injured. The attempt to escape occurred in the broom shop of the prison.

The War Department does not anticipate any trouble in Porto Rico growing out of disorderly conduct of troops. There has been some irregularities growing out of lack of discipline in the volunteer organizations, but the officers are getting better control.

Nothing particularly new developed in the session of the Peace Commission yesterday. The Americans will probably require until next week to prepare a final presentation of their case. The bitches seems to be to arrive at a proper adjustment of the amount of cash due Spain upon her relinquishment of the Philippines.

Members of the Anglo-American Commission, Canadians and Americans, express a hope that the Commission will complete its labors before the holidays. The important questions, however, of the North Atlantic fisheries, reciprocity and Bering Sea remain open.

WEATHER BULLETIN.

(Copyright, 1898, by W. T. Foster.)
St. JOSEPH, MO., November 19.—My last bulletin gave forecasts of the storm wave to cross the continent from 17th to 21st and the next will reach the Pacific coast about the 21st, cross west of the Rockies country by the close of the 23d, great central valleys 23rd to 25th, eastern States 26.

Warm wave will cross west of Rockies country about 21st, great central valleys 23d, eastern States 25. Cool wave will cross west of the Rockies country about the 24th, great central valleys the 26th, eastern States the 28th.

Temperature of the week ending 8 A. M. December 5th will average below normal in the northern, above in the southern, and about normal in the west of the Rockies States.

A very considerable fall in temperature will occur in the northern States during the last days of November, and in the southern during the first days of December.

The Cabinet session yesterday was mainly devoted to the consideration of complaints that have reached the War Department, alleging that a state of practical anarchy prevails at Porto Rico. These complaints assert that the lawless element are committing depredations of the gravest character and that the troops take part in them.

WHEREFORE THE ROSES FADED

(Adapted from the Greek of Philostratus.)
What hath befallen, tell I thee,
The roses that I sent to thee?
For ere thou didst receive my posies
They still were fair and still were—roses,
And certes I could never send
A worthless garden to my friend.

Why, when thou hadst them, did they lose
Their scent, or what hath marred their hues?
The reason true I know not well,
For what it was they would not tell,
But this, I think, they could not bear
Comparison with one so fair.
And, touching thee, whose fragrant bloom
Outbragged their own, they met their doom.

So when the little lamp is lit
The blazing fire doth vanquish it,
And when they cannot face the sun
The stars are blinded every one!
—Percy L. Osborn in Fortnightly Review.

Little Red Language in London Outside of Petticoat Lane.

Little rough or rude language is used by the English. They even fight without swearing and get very drunk and noisy without employing strong language. They love to chat and gey each other, and the crowds and the street people who drive horses and peddle goods and hang about the corners are a great deal wittier than most of us give them credit for being, but they seldom resort to bad language. I never heard much of it until I went to Petticoat lane, and I know a woman who has lived here two years and been constantly about town who tells me that in that time she has only heard one oath from an Englishman's lips. The worst word I heard in Petticoat lane was "bloody." That, however, is the worst word I could have heard—in English opinion it is the foulest word there is. I have only heard one man use it and he did not speak it. He was very angry, and he spelled it.

I am telling you this because I know that at home in America we associate it with the English and put it in Englishmen's mouths in our anecdotes, as if it were a matter of course that it should be used to give a local color to an English story. Americans come here and make use of the word for the comic value that they attach to it, and yet I assure my readers that if they tried to think of any really disgusting term they had ever heard and made use of instead they could not more startle or shock these English ears.

English sailors have brought the word "bloody" to our shores—sailors and prizefighters and stablemen, and only such persons cling to it here. What we consider a very much fouler word has a vastly wider circulation, but is not considered as bad as "bloody." All this is very strange and requires a native to explain it, especially as "bloody" is merely the contraction of the oath "by our Lady," which was more or less commonly used in the ancient days when this was a Roman Catholic country.

The people who try to swear without swearing—who in our country say "hully chee" and "by cripes," all use the word "blooming" over here. "I can't very bloomin well make you buy this bloomin thing, but I'll 'ave a bloomin try at it," is what I heard a street fair say to a crowd the other day. There is no harm in that at all, and it is much more typically English than the word "bloody," besides being decent.

It is funny what mistakes nations make about one another. Over here the very smart thing in reporting the speech of us Americans is to make us all and always call ourselves "Amurricans." It may be true of us. This whole nation believes it. But I never heard an American so pronounce the name of our country, and yet I've got a quick linguistic ear, which is a thing the English utterly lack.—Julian Ralph in Providence Journal.

A Literary Slip.

One of the most literary of the London evening papers makes the following startling announcement: "A complete set of hydrants and fire appliances will be arranged, and the stage is to be fitted with a double asbestos and steel fireproof curtain, controllable by one man. The latter is designed to be one of the largest in London—namely, about 80 feet wide and 50 feet deep."

I try and give my patrons the benefit of low prices before they make their purchases not after they have bought. See my great variety of millinery and get the prices. Miss A. MOTLEY.

Wm. Hoopes of Carson was killed yesterday at Pine Nut while hauling wood. He had loaded his wagon and was driving when the seat broke throwing him forward, so that he struck his head on the wagon tongue. He was then run over and killed.

Don't forget that the fireboys have engaged a costumer from San Francisco, and he promises to bring the finest (as well as the most reasonable in price) line of costumes ever brought to the city. Watch these columns for the announcement of his arrival, and secure a prize winner.

Mr. Hardup.—How is it Jack, that you sport such fine clothes which I cannot afford, while I get as much salary as you do?

J. Common-sense.—Because I buy my groceries of Looftbourrow, the cash grocer, and save \$4 a month on my bills, which amounts to \$48 a year enough to buy two good suits of clothes with. "See." nov11w1

H. Hewitt, representing the Collier Publishing Company, is spending a day or two in Reno. Mr. Hewitt is a fine specimen of physical manhood, and is frequently mistaken for Jack McCall, Peter Maher, and even the Irish giant. He is finer looking however, but allows the deception to have full sway among new acquaintances and enjoys it hugely. He is a very pleasant gentleman and rapidly makes friends.

BRYAN ON ELECTIONS.

The Chicago Platform Will be Reaffirmed in 1900.

Col. W. J. Bryan, who is at his home in Lincoln, Neb., on a furlough, has given out the following interview relative to the late election:

"While I do not understand that service in the volunteer army prevents a soldier from expressing opinions upon political questions, I declined to take part in the late campaign lest I should be accused by partisan opponents of attempting to embarrass the administration. Now that the election is over, I shall exercise a citizen's privilege of discussing the returns.

"Compared with the election of 1896 the Republicans have gained in some places and lost in others. It was not a sweeping Republican victory. On the whole, the result is not surprising, when it is remembered the administration is just concluding a successful war.

"While a majority of the soldiers are probably anti-Republican, the management of the war has been entirely in Republican hands, and the strongest argument used during the campaign was that a Republican defeat would discredit the President in the eyes of foreign nations while his commissioners were engaged in making a treaty.

"It was not a trial upon the issue before the people, but a successful plea for the continuance of the case. The people have not accepted the gold standard; they have not fallen in love with the plan to give the banks a monopoly of the issue of the paper money; they have not decided to retire the greenbacks; they have not surrendered to the trusts.

"These questions were forced into the background by the declaration of war, but they must be faced again as soon as peace is restored. The Chicago platform presents for public consideration certain vital, economic questions. That platform has not been abandoned by those who indorsed it in 1896. It will be reaffirmed in 1900 because it gives expression to the hopes and aspirations of a large majority of the party.

"When the Democrats, Populists and silver Republicans favored Cuban independence they understood that war would give a temporary advantage to the party in power, but they were willing to risk defeat in order to aid the people fighting to be free.

"Neither can the election be regarded as an indorsement of any definite foreign policy. Until a treaty of peace has been entered into and the terms made known, the people cannot pass judgment upon it. Whether the war will raise any question of sufficient importance to turn public attention away from domestic problems remains to be seen.

In regard to the Nebraska election he said: "A light vote was cast in Nebraska, but the Fusionists have elected the entire State ticket and carried the same Congressional districts that they carried in 1896. If Senator Allen is defeated for re-election, it will be because Senators are elected by legislators, instead of by the people. If a Republican Senator is chosen by the next Legislature he will go to Washington to represent a minority of the people of the State and to thwart the will of the majority."

Official Canvass.

The Board of Commissioners met yesterday for the purpose of canvassing the returns from the various precincts of the county. Quite a number of interested spectators were present, Governor Sadler among the number. The tally books, certificates of judges and clerks of each precinct were first carefully examined to see that the law was carried out in detail, then Chairman Beck footed up the tallies opposite each candidate's name, and called out the result, while Commissioner Hyman compared the number called by Mr. Beck with the number returned as per the certificates of the election boards. There were very few irregular ballots. Some had been spoiled and the voter had returned for another ballot. These comprised about all of the irregularities.

Only one case demanded a canvass of the ballots in detail, that being the office of constable of Verdi.

There were three candidates, viz, Cooper, Watts and Woods. The returns showed a tie vote between Cooper and Woods, and Watts one vote less than either of the others. The ballots from Verdi were opened and the votes called off. Cooper received 29 votes, Woods received 29 votes, and Watts received 28 votes. This being identical with the returns, the Board decided that the matter would have to be settled in court.

The table of Washoe's vote as published in the JOURNAL has a few typographical errors, which will be corrected to day, and the next issue will give the vote by precincts and the totals as officially returned by the Commissioners' canvass.

Injured In Trying To Jump A Moving Train.

"Red" Patsy Finnigan attempted last night to catch passenger train No. 4 as it was pulling out. He made a run for it and either stumbled or lost his grip on the step rail and was struck by the car. Luckily the blow knocked him away from the moving train, or he would have been ground to pieces. He was picked up and carried to the Russ House and Dr. Patterson was called. His scalp was horribly torn and he was considerably bruised up, but the doctor thinks he will pull through allright.

Mrs. R. F. Lafoon of Candelaria changed cars for the west last evening.

ROYAL BAKING POWDER.

CHEAP LIVING NOT POPULAR.

People do Not Want to Live on Eight Cents a Day.

Dr. Lillienfeld, the celebrated chemist, has discovered a process for making albumen artificially from the waste products of coal tar. It can be made at so little cost that eight cents' worth will support life for a day.

It is a debatable question whether the average run of people want to live cheaply—that is judging from their present methods of life. There is not a family in this country in even ordinary circumstances that does not expend considerably more money than is necessary for its "living." Decrease in prices does not decrease family expenses, unless adversity interrupts. A certain sum has for years been allowed for house expenses, and if prices drop more articles are added to the list, thus keeping up the average expense account.

It is a notorious fact that there is more waste among the poorer classes than among those of "better circumstances." This waste is due to ignorance or the preparation of food. The waste meat from the laborer's table is brought back as croquettes to the clerk's table, or chopped up and mixed with a couple of eggs, an omelet. The additional expense is not five cents, yet a fair meal for a small family has been made, and so on.

Fear keeps the average American family from living within its proper money limit. Mr. So-and-So has this, and Mr. What's-His-Name must have it too. If Dr. Lillienfeld could find a process for keeping a whole family for eight cents a day, and depended on the sale of the process for his own living, he would starve to death. The Hon. Benjamin Harrison uttered more truth than poetry when he said a cheap coat makes a cheap man. It has been demonstrated that two hours' labor a day under certain social and economic conditions, would keep a man a day. But the fear that man would become a "two-hour man" prevents the change.—Chicago News

COLONEL JAY L. TORREY

Wants to be a United States Senator.

As anticipated Colonel Jay L. Torrey is out for United States Senator from Wyoming. From what his men say of him no better choice could be made and the Wyoming Legislature could pay him no higher compliment for his patriotism and energy in organizing the regiment of genuine cowboys from the intermountain States.

A Clever Trick.

It certainly looks like it, but there is really no trick about it. Anybody can take it who has lame back and weak kidneys, malaria or nervous troubles. We mean he can cure himself right away by taking Electric Bitters. This medicine tones up the whole system, acts as a stimulant to liver and kidneys, is a blood purifier and nerve tonic. It cures constipation, head ache, fainting spells, sleeplessness and melancholy. It is purely vegetable, a mild laxative, and restores the system to its natural vigor. Try Electric Bitters and be convinced that they are a miracle worker. Every bottle guaranteed. Only 50c a bottle at S. J. Hodgkinson's Drug Store.

Col. Torrey Presents a Flag.

Col. J. L. Torrey has presented the State of Wyoming with the regimental flag of the Second United States Volunteer Cavalry and the guidons of the seven troops of the regiment which were organized in that State. The regimental flag was presented to the regiment by the women of Wyoming. It is a beautiful emblem, made of yellow silk with the coat of arms of the United States embrodered in silk in the center. Beneath is a scroll with the number and name of the regiment embrodered in yellow silk.

No Travel pay for Men on Furlough.

Colonel Torrey writes to some of his Rough Riders that the boys who were on furlough when the regiment was mustered out will not be allowed travel pay. The Colonel says that he does not think this is fair and will use every endeavor to have the ruling of the Pay-Master General changed in this particular. He regrets the ruling very much and says the boys should receive full pay.

Hanged Himself.

Antonio Patagna, who stabbed and killed Thomas Zeimetz at Dayton about a month ago, hanged himself in the Dayton jail, where he was confined. His trial was set for December 6th. He has maintained that the killing of Zeimetz was accidental, but it is believed that he was insane at the time of the murder and that his suicide is the result of remorse.

Millions Given Away.

It is certainly gratifying to the public to know of one concern in the land who is not afraid to be generous to the needy and suffering. The proprietors of Dr. King's New Discovery for consumption, coughs and colds, have given away over ten million trial bottles of this great medicine; and have the satisfaction of knowing it has absolutely cured thousands of hopeless cases. Asthma, bronchitis, hoarseness and all diseases of the throat, chest and lungs are surely cured by it. Call on S. J. Hodgkinson Druggist, and get a trial bottle. Regular size 50 cent and \$1. Every bottle guaranteed, or price refunded.
